

St. Christopher's Primary School on Haddington Road is an amalgamation of two former schools, St. Brigid's and St. Mary's BNS. This brand-new development in Ballsbridge was completed in 2019.

The new 'L' shaped building is a beautifully designed by Coady Architects with spacious classrooms, a bright, well-stocked library, large PE hall and lots of space for play and physical education.

APA Facade Systems worked on this new school development with Mc Mullan O'Donnell who installed out ST70 HI windows and doors.
