

APA Facade Systems are extremely proud to have worked on this award-winning project that won the prestigious Premier Guarantee multi-storey development of the year award in 2019.

APA fabricated our TB50 curtain wall system and ST70 windows and doors for the ground floor space which includes high-quality restaurant/retail space that will also activate street frontages and public realm.

Stanmore Contracting Ltd installed our fenestration systems to this beautiful development. The design was inspired by the birch trees that line the paths of Kidbrooke Village, Birch House is the centre piece of the area.

### Main Contractor:

Berkeley Group Plc

### Architect:

Buj Architects
