

The Charlestown Residential Development is a high quality, brand new apartment development located right beside Charlestown Shopping Centre in Finglas.

This multi-level apartment complex was developed by John Paul Construction and designed by McCrossan O'Rourke Manning Architects. It consists of 377 apartments spread across six buildings.

These spacious apartments, managed by U by Urbeo, are centred around open-plan living and exceptional interior design.

Kerr Aluminium expertly installed our TB50 curtain wall system, alongside our ST80 windows and rebated doors to the ground floor of these apartments.
