

Ardee Point Student Accommodation is a 368-bedroom luxury, high-end development in the historic Liberties in Dublin City.

The development by John Paul Construction consists of three purpose built student accommodation blocks 6-8 storeys in height, with high spec finishes throughout.

Designed by Henry J Lyons, one of the key aspects of the design spec was to ensure the residents of Ardee Point Student Accommodation get the most out of their experience.

Our highly versatile TB50 curtain wall and thermally enhanced ST70 Hi windows and doors were installed on the glasshouse located in the internal courtyard of the apartments. They also feature of on the ground-floor treatment of blocks A, B, and C, installed by Season Master Double Glazing.
