

APA Facade Systems TB50 SG curtain wall system was installed on the award winning Grifols Biopharmaceutical Facility Phase 1 and 2 developments.

This development picked up the Manufacturing Facility of the Year and the "Be Inspired" RIAI award recognising the building's attractive design, industrial architecture, and use of materials particularly the juxtaposition of different elements and the handling of the office facades.

This new worldwide operations facility in Dublin was handed over to Grifols by Stewart Construction to celebrate their 75th year in Business.
