LIFE ENHANCING WINDOW

LIFE ENHANCING WINDOW

Our Life Enhancing Window has been specifically designed to meet the needs of people with limited mobility. Compatible with all the windows in our ST suite, this turn and tilt system meets all of the requirements of the 'Lifetime Homes Scheme' in the UK. It comes with a choice of thermally efficient polyamide cores ranging from (24mm - 44mm). Depending on the system, the glazing aperture can vary from 28mm - 52mm, allowing a choice of infill panels to suit thermal and acoustic performance requirements.

LIFE ENHANCING WINDOW FEATURES

- Turn and Tilt System.
- Compatible with all of our ST window systems.
- Fully tested to BS EN standards.
- Suggested maximum size of 900mm x 1500mm.

Test Standards	Regulation	Class	Result
Air Permeability	EN 12207:2000	Class 4	600pa
Water Tightness	EN 12208:2000	E1650	1500pa
Wind Resistance	EN 12210:2000	Class 5	2400pa
