

APA Facade Systems manufactured our curtain walling, manual and automatic doors and rooflights for the Meggitt HQ super-site' at Ansty Park in Coventry.

Speedclad Ltd installed our aluminium fenestration systems on this Winvic Construction project.

The beautifully designed 440,000 sq.ft building will provide manufacturing and office facilities for international aerospace, defence and energy engineering group Meggitt Plc. The site was developed by Manse Opus, who were appointed by Rolls-Royce to lead development and regeneration of surplus land owned by the aerospace giant.
