ST VISION PLUS

- The ST Vision Plus is designed for large dimensions up to 3000mm x 3000mm, maximising luminosity.
- Opening possibilities of up to six sliding sashes.
- It displays a 94% glass surface, with a slimline central interlock showing only 25mm of aluminium section.
- Available as a motorised or manual sliding door. You can also install this system as a 90-degree corner sash without the need for mullions.
- Finished in single and dual colour to match Qualicoat (RAL colours) or with anodised finish.
- The Vision Plus is one of the smoothest doors in the sliding range. It incorporates rollers in the frame and the sashes come with a stainless steel reinforced channel resulting in a smooth gliding motion.
- Optimal thermal and acoustic performance levels due to a glazing capacity of up to 54mm.
- Maximum weight/sash: 300kg manual and 700kg motorised.
