

Knights House in Sutton, Coldfield has undergone a dramatic transformation. Once an old unused office block, this building has been renovated into a luxurious apartment development.

The nine-storey building features 63 one and two-bedroomed apartments including 12 penthouses, with top of the range design features, all made available for private rental. Knights House also features a restaurant and office facility.

Featuring views of woodland, lakes, restaurants, 2 golf courses and children's playgrounds in leafy Sutton Park, Knights House is perfectly situated within walking distance of local shops and amenities including Sutton train station.

A former borough town, Royal Sutton Coldfield is a vibrant hub of activities and a fantastic place to shop and relax outside of Birmingham City.

Performance Window Fabrications designed, manufactured, and installed APA's high-performance ST60 window system, ST60 rebate doors (meeting the requirements of SBD) and TB50 curtain wall system on this project.
