

APA Facade Systems provided our TB50 curtain wall system and thermally enhanced ST70 Hi windows and doors to be installed on the Mid Eastern Region Innovation Think Space (MERITS) in Kildare.

Constructed on the site of Kildare County Councils offices (another project featuring our curtain wall system), this €3.8m high-tech, two-storey building is the new Naas IT Hub. Occupied by new innovative Irish and international technology companies, it will provide them with mentorship and support.

It features a reception area, a café, community rooms, meeting rooms, managers office, conference area/function room, open-plan office for hot desks and 10 no. business start-up office spaces, along with kitchenettes and associated service rooms.
