

Building upon the huge success of Royal Wharf, one of London's largest and fastest-selling mixed-use projects, Ballymore & Oxley joined forces again to deliver the impressive 1,000,000 sq. ft Dublin Landings.

This project consists of five office blocks, green streets and squares, a boutique hotel, 273 apartments, retail and leisure facilities, an 11 sq. ft gym and the state-of-the-art Central Bank of Ireland.

5 Dublin Landings features our TB50 curtain wall system on every elevation of the building. Designed by Arrow Architects & RKD Architects, this building feature large floor to ceiling glass panels, flooding the office space with natural light.

Buildings 3 & 5 also feature our structurally glazed curtain wall system installed as bespoke atrium roof lights consisting of single-span mullions 7.3 metres long. The impressive rooflights are glazed with 47 mm thick, toughened laminated units, spanning 6.5 metres x 1.5 metres.
