

The IDA Advanced Technology Building in Dundalk is a 33,906 sq ft (3,150 sq m), high profile technology/manufacturing space. It is situated in the IDA Dundalk Science & Technology Park, Mullagharlin.

Our structurally glazed TB50 curtain wall system with integrated concealed frame vents was installed on this project by Season Master Double Glazing Ltd, adding much needed natural ventilation to the internal office environment.

The new Advanced Technology Building is conveniently located just 45 minutes from Dublin airport and 55 minutes from Belfast airport. It has been designed by Fewer Harrington & Partners to achieve LEED CS accreditation.
